Re: Transfer of Ownership in Quiet Meadows Solar Farm 2, LLC

Dear Ms. Papale:

We are special counsel to Quiet Meadows Solar Farm 2, LLC (the “**Company**”), a wholly owned direct subsidiary of EDF Renewables Distributed Solutions, Inc. (the “**Original Sole Member**”). The Company applied to the Oneida County Industrial Development Agency (the “**OCIDA**”) for certain tax abatements for a 5 megawatt (“**MW**”) community solar project (the “**Project**”) on April 9, 2021. The Original Sole Member anticipates entering into a membership interest purchase agreement with ASA Holding NY I LLC (the “**New Sole Member**”), a wholly owned direct subsidiary of AMP Solar Development Inc., pursuant to which the Original Sole Member proposes to transfer its 100% ownership interest in the Company to the New Sole Member (the “**Transfer**”). The New Sole Member is a global diversified renewables company founded in 2009 with extensive experience across Massachusetts, New York, Minnesota, Pennsylvania and Illinois.

Pursuant to Section 6.3 of the Leaseback Agreement, dated as of October 1, 2021 between OCIDA and the Company, OCIDA’s consent is required to consummate the Transfer. We request that OCIDA consider this request for OCIDA’s consent to consummate the Transfer at the October 21, 2021 board meeting.

The Company will remain the counterparty on all of the straight lease documents with OCIDA and remain obligated to complete the Project and abide by the terms of the straight lease documents with OCIDA. In addition, after consummation of the Transfer the Original Sole Member will
